Report SWISS SCIENCE FILM ACADEMY 2021

4th Global Science Film Festival in Zurich-Bern

- The film festival was organised online (19-28 November) and in-cinema (25-28 November) in Zurich and Bern
- The program included four film categories: Full-length films, Short films (professional), Scientists-as-Filmmakers (films made by Swiss scientists), and Pre-festival (out-of-competition)
- 3119 films were received as submissions
- 37 films were selected for screening: 10 full-length films, 6 short films, 20 scientists-as-filmmakers, and 1 pre-festival
- 10218 online views for Scientists-as-Filmmakers between 19 and 28 November
- More than 2200 visitors in Zurich and Bern between 25 and 28 November
- 17 podium discussions “Filmmakers-Scientists-Society” were organised after the screening of the full-length films

5th Science Filmmaking Marathon

Fifty scientists and filmmakers from nine Swiss universities and research centers participated in the 5th Science Filmmaking Marathon. Together with 10 professional filmmakers, the participants produced 11 short films for the wide public, which were shown at the 4th Global Science Film Festival.

2nd Science Photo Marathon

Thirty-one scientists and non-scientists participated in the 2nd Science Photo Marathon, where a total of 240 photos were produced within 8 hours. The photos were on the topics of the 'natural' and the 'synthetic', taken at the locations of 4 Swiss scientific institutes in Zurich.
